Controlled asset.

Use discernment, patriots.

We are fighting a war, against people who do not share our values or our priorities.

Stop placing value in the term "Republican." That value has been used against us, for many years.

"Republican" and "Democrat" no longer possess any meaning.

It's only Patriots and Traitors. Learn to spot the difference.

I hate his protégé Matt Mowers with the fire of a thousand suns for how he fucked over NH and didn't even fight when Powell asked him to. Just slunk off like a bitch. People in NH remember this shit for GENERATIONS

Conceded to Pappas straight away in Dominion tabulated counties even though he was within the margin of error. Disappeared off The face of the fucking earth and was never heard from again. Edit: the RNC committeeman wrote to the NH SOS asking him to audit the machines and crickets from everyone. Mowers should have been all over it. But also Messner cucked as well. I think Messner was threatened by the Clinton machine.

By the way, I recommend everyone here download the "*Talk Right*" app on mobile. War Room can be streamed there for free, along with all his archived podcasts. Talk Right doesn't censor shows either. I've emailed the owner. It's completely independent/small operation. Any conservative show you can think (Limbaugh, Levin, etc.) is streamed there live, as well as their podcasts (if you miss it live). Most the podcasts are ad-free.

I recommend the app. It streams live as well as ad-free archived podcasts. Easy on bandwidth too since it's just audio. Nice to listen while working, driving, etc.

They do have a website too I suppose if you want. Here's the link to their War Room stream. Scroll down and click below where it says "**STREAMS FOR War Room with Steve Bannon**".

Awesome!. Let me finish uploading the show and I will check it out. My biggest quarrel with apps is people like me who don't use Google or have Google accounts hence cannot use Google Playstore links.

Sometimes developers offer direct links to their apps in their own websites so I will take a look. Otherwise I might add a link to a mirror app-store but that would require a small explanation/warning along with it.

[permalink](#) [parent](#) [save report](#) [block](#) [reply](#)

▲ 2 ▼

- [oxygen](#) [S] 2 points 5 hours ago +2 / -0

Yeah you can stream off the website if you want. I could not find an APK mirror or similar for the app.

Regarding a Google account, just create one with a generic email. Turn off all data sharing. You don't even have to have a gmail account, just a basic Google account, assuming you have an Android not IOS. That's what I do. I have adblockers on all my browsers, I don't use Chrome, and I don't search with Google. Google doesn't make any money off me. They do know what apps I install on my phone, so I get if you don't like that.

Interesting. Maybe I'll throw in a few links to the audio podcast as well.

As for Google, you cannot open (or maintain) any kind of Google account without phone-verification, and that's simply never going to happen 😊 (If you're not getting a phone-verification prompt is because you're not using a secure VPN and they know who you are based on your IP address).

Also, you can find 99% of apps using the AuroraOSS store because they basically assign you a fake Google account and offer the same catalog. And there's also plenty of other alternatives too. Here's one on APKPure for example:

<https://apkpure.com/talk-right-conservative-talk-radio/com.talkstreamlive.talkright>

The problem with mirror sites is the security risk of course, but I prefer to take my chances with those than Google which is also full of malware apps anyways. 😊

(If you're not getting a phone-verification prompt is because you're not using a secure VPN and they know who you are based on your IP address).

Considering Google makes the Android software my phone runs on and my phone is already linked everywhere I go from both satellites and cell towers and is constantly emitting a unique signature from my SIM and IMEI, I'm not too worried. I use a VPN when browsing but Google knows this is my phone regardless, and knows my location to some degree. They don't know what I do online but they know this is my phone.

Also, you can find 99% of apps using the AuroraOSS

I've had it for a few years but it just doesn't work reliably.

The problem with mirror sites is the security risk of course, but I prefer to take my chances with those than Google which is also full of malware apps anyways.

I don't use many apps, and I never do any online purchases or banking on my phone, even if my phone did get a malicious app. I also deny 95% of the permissions for every app I install. Plus I have an antivirus program which scans new apps when installing.

Oh yeah, forgot to mention. You can deny location to Google Play, too.

– [Shepherds_Sling](#) 1 point 1 hour ago +1 / -0

Oh, I've been using Aurora for a year or so now without any issues whatsoever. Previously I was using APKPure but they flooded their app with ads. 😞

For those who want a 100% Google-less Android there's a lot of options out there. It takes some dedication but it's a really fun project as well!

Thanks for all the info, oxygen, I'm going to look into the audio podcasts links tomorrow! 👍

The Dominion machines that are "breaking" in republican areas is total BS again! Under NO circumstance should they leave their ballots with the poll workers to enter at their own time later on. Republicans who can, need to stay there with the poll workers and not leave until the damn machines are up and working. Get a crowd going. Call their bluff, make them call the cops. Make them drag you away while having a buddy record it.

When it happened, I figured Bridgegate was a made up attack to smear him. Now I can totally see him doing it.

Perdue did a terrible job and I'm not surprised to hear that the turnout isn't great. "Vote for me because I'm better than the alternative" while getting Trump to carry you is a garbage strategy.

State legislatures don't have the guts? Then it's down to Pence.

Pence doesn't have the guts? Then it's down to The People to withdraw their consent to be governed by a kleptocracy and to reinstall a government under the Constitution.

And if the people don't have the guts?

Managed declines for most, gulags for some.

Then gulags for most.

Rinse and repeat.

Anyone want to add up how many congress critters aren't legally winners because of (unconstitutional) voting of pre or post election day which violates:

<https://www.law.cornell.edu/uscode/text/2/7>

As set by the Constitution, Article 1, Section 4: Congressional elections; Clause 1: Time, place, and manner of holding :

https://en.wikipedia.org/wiki/Article_One_of_the_United_States_Constitution#Clause_1:_Time,_place,_and_manner_of_holding

The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations, except as to the Places of chusing [sic] Senators.

The dominion machines in republican counties are not working? After everything they have heard about the fraudulent November 3rd election how can any republican fill in their ballot and leave it with a poll worker? Stay in line and wait for the machines to work. Kemp and every republican in power in Georgia need to resign now. Machines not working should not be happening. Third World election theft.

I have have seen voting machines malfunction or stop working during right before I've voted a couple times. In those case I was told "Just hang on a minutes and we'll have it back and running for you, or one of the other machines will be free and we can switch you to that one". Why is it only for THIS election cycle that they can't do that?
